

Alpha Mentality

Bizzy Bone

Alpha mentality
None of you niggas can battle me
Break out your salary
Rather we conquer the world with no casualties
I'm a legend and I'm the cavalry
Bring all the rappin' you had on the palate me nigga
My shit is the bomb
(Before I begin)
I'ma pull out my gun
I'm comin' out of this muthafucka when these niggas are done
I'm serious
And the Ripsta mister
Nigga that'll rock your cradle
I ain't a bitch
I don't have a period
(Soon as I'm fit)
There'll be angels
Wait 'til the case is closed
Wait 'til the place is full
Then I unload
It's that bloody murda murda
So that they think I'm done
It's murda mo
Develop inside of my shadow
These niggas are shallow
Nigga trust me
You won't fuck my bitch
But one of them raggedy baby mamas
You can have though
She not the same ho
That bitch have a place
That mean you drink with Drano
Hit 'em like Mano
I cut one you young niggas in tens in Caymo
Pick up Bones fantastic
Let me get my flame on
May the force be with y'all label
For the shit I spit is fatal
You niggas are more prenatal
Appeal that I bought for the watch that I got on the table
Don't trust my paper
Don't discuss my paper
I get plenty ho
Never lay late by the stairs
You know that you don't want to throw hands
On the dirt you can leave man
I'm a shooter but I'm from Cleveland

Oh say can you see
Nigga repeat after me
By the dawn's early light
Better not
Never fuck with
Never fuck with
Proud may we stand
On a C-L-E-V-E-L-A-N-D
O-N-E

Don't make me release my nigga Stan
When the twilight
Light so gleamin' (gleamin'...)
When the twilight (twilight...)
When the twilight
Light so gleamin' (gleamin'...)
Oh say can you see
Nigga repeat after me

My freak a negros
Let me wrap this up like egg rolls
Ain't none of us really the best bro
Never think that you are less though
I get it but this ain't the pop culture for the critics
Nigga this Hip-Hop
And the legends I know they are livin' it since the day
We sound like a mimic
I'm with it
Let's get it
Not break up or make up
I'll deal with you lil' niggas myself
Yeah you don't have any advantages
Give a fuck if it was money 'cause I don't need help there
And I got ten in a bag facts
Put it up so it cannot be attached
I'll bury myself in the money
You muthafuckas that be throwin' my back yes
I'm just-just smarter than y'all
My niggas way harder than y'all
Wish Bone's a father to y'all
We don't even bother with y'all
You told the legends they should kiss your feet
Dawg you should miss your teeth
Oh diamonds to meet palms
He told all his niggas they better not answer that
Me I told all my niggas they better prepared to strap
But no no more I-G
They are cancer rap
(B.B. let it blow over)
Nigga you can cancel that
T'Challa talkin' to Eazy through the dirt
And bring that panther back
(The foster kids)
Lil' nigga still a shooter
Lil' Ripsta had to school you
Don't let the light skin fool you

Oh say can you see
Nigga repeat after me
By the dawn's early light
Better not
Never fuck with
Never fuck with
Proud may we stand
On a C-L-E-V-E-L-A-N-D
O-N-E
Don't make me release my nigga Stan
When the twilight
Light so gleamin' (gleamin'...)
When the twilight (twilight...)
When the twilight
Light so gleamin' (gleamin'...)
Oh say can you see

Nigga repeat after me

What are you disrespectin' legends for
Them niggas ain't checkin' y'all
Soon as you said my name
I turn this plane into a wreckin' ball
Fuck them pants
They are extra small
Fuck your fuckin' dance
Why don't you stand like you a man
Y'all act like y'all some fuckin' broads
Fuckin' up the cause
Fuckin' up the brick you niggas Fentanyl (Fentanyl, Fentanyl...)
I'm still ventin' y'all
Three piece and with extra slaw
Them pieces with extra sauce
You like one of them bitches that can't get me off (get me off...)
The pelican order is destiny y'all
Pluckin' your feathers and even though I'm just peckin' at y'all for the talent you niggas possess
Bone's much better than y'all
