Collide

Black Country Communion

So deep in conversation I gotta keep control My secret on the station The wire to my Soul

The flame it is burnin'
It kill my alibi
The wheel it keep on turnin'
No time to wonder why

I'm feeling like an alien
Justified
Been healing in the radiance
You're my Guide
I'm livin' in the harmony by your side
We just collide

I heard there is a rumor You testified your fate I'll get to you much sooner Don't live and die in hate

I'm feeling like an alien
Justified
Been healing in the radiance
You're my Guide

I'm livin' in the harmony by your side We just collide

I'm feeling like an alien
Justified
Been healing in the radiance
You're my Guide
I'm livin' in the harmony by your side
We just collide
Oh, collide
