

## Garbage Heap

Black Francis

On the garbage heap at the edge of the town  
How the flames do leap casting shadows around  
Have you seen my love? I know he is here  
Falling from above for so many a year  
I'll stay here with you  
I'll lay here with you  
We're going to be a long time  
In the olive trees you showed things to me  
You could not believe when I let you in me  
Dancing in the night there in Jerusalem  
Hiding from the light barely still one of them  
I'll stay here with you  
I'll lay here with you  
We're going to be a long time
