

See The Sun

Black Lab

If I feel this feeling
If I let myself go deep again
Will you stay by my side, yeah
Cause if I feel this feeling
Things won't ever be the same again
If planets collide I won't mind,
No I'll be fine

I can't see the sun anymore
I can't feel the drugs anymore
I can't see the sun anymore
But I don't mind
You're by my side
And I feel fine.

Are you my revelation
Are you the answer to my question
Or have I wasted my time, yeah
Cause if I feel this feeling
Will you crawl out of your perfect skin
And climb in to mine will you shine
Will you be my light?

I can't see the sun anymore
I can't feel the ground anymore
I can't see the sun anymore
But I don't mind
You're by my side
And I feel fine

Hey michell we're too young to be alone
Hey 'shell is your heart still made of stone
Hey babe I call will you take me home
Hey babe I'm calling hear me calling
