

Nothing Forever

Black Majesty

We can refuse the truth
Forever you
Forever us
Salvation watch us drowning
Bearing the scars that is life
You've given me
I've given you
Salvation watch us rising

All that is left
Is behind so move on

Nothing's forever in life
What goes around won't come around here
So surely your promise won't stay with me
Nothing's forever in life
If you let it fade, then there's nothing
Forever you'll find

Blinded denied to betrayal
What do we see
How do we feel
Temptation now is finding
Bury the pain that survived
Tearing at me
Tearing at you
Temptation won't survive it
