

## All You Do Is Talk

Black Rebel Motorcycle Club

Help yourself don't say a thing  
Your love won't show in anything at all  
If all you do is talk

Sadly I remain in need  
Of all the things you say  
But leave in speak  
All you do is talk

Help yourself don't think  
Help yourself don't speak  
Help yourself don't say a thing at all  
You're lucky words don't bleed

You time the end of all we see  
You say we're on our way  
And all will be  
Alone in everything

You say it's all we'll ever need  
You've found an easy way  
But still you weep  
Alone in everything

Help yourself don't think  
Help yourself don't speak  
Help yourself don't say a thing at all  
You're lucky words don't bleed

Help yourself don't say a thing  
What love you show won't mean a thing at all  
If all you do is talk

Sadly we remain to see  
What brings an end is also what we need  
All you do is talk

Help yourself don't think  
Help yourself don't speak  
Help yourself don't say a thing at all  
You're lucky words don't bleed
