Pass it, tap it, and then crack it

Take a small swig or down it like a pig
You too tipsys to operate this rig
I'm a mike, you suckers I strike in flight
Here's a D.W.I. for drivin' drunk with the Mike
From Chi to Lawnge and all those in this fight
Loosen your grip 'cause you're holdin' it to tight
I'll take a body count, I know my body count is right
Five drunk niggers from my left to my right
And maybe you hope that I'm with tonight

But it's all right, yo' it's all right So Dave my grip is getting weak Grab the 40 so I can hear you speak

I live large, Caviar and Limos
Spent most of my time refusin' bullshit demos
Can you understand, do you you understand?
Well let me explain I'm the A and R man
Dave Gossett, yes I rock it
I rip the mic and I stuff pockets
Don't believe me, ask the sheep see
They got the money, think it's funny
Always scoopin' all the honey

Opps, I meant to say hoes, broke my own rhyme What'cha didn't know, uh oh
I see a stroblelite hoe, I gotta go, I gotta go
Yo Dres, it's your turn
Act like gonnarhea and burn baby burn

Step into the booth and give 'em proof
That black sheep don't need Jack to get loose
And rip a roof, the center too
You're in my f**kin' way so move
And let a nigga get smooth
Honeys play me close
'Cause my goods are on display
So, I play 'em like vitamins and take a ho a day

I pull 'em like a dentist, mold 'em like a teacher
Knock 'em like a bowler, fleece 'em like a preacher
Step, get a man, go to school, join a band
It makes no difference whether
Dre's is that type of brother
That will hit that ass forever 'cause I'm clever, ever
Have I, ever, lost my sight
Or said, "Mike when I bone this night"

Not talkin' 'bout chicken
But if she's finger lickin'
I will let it be known
Don't bite the bone
Micraphon's I like 'em 'cause they let me amplify
So don't reach for the sky, you know you can't fly
But still you reach up higher, a black sheep is your desire
Then you look up at me 'cause I'm a frequent flyer

So now you got beef chief, grief will be your I sport a full metal jacket, give your beef some lo mein 'Cause I'mm swingin' like a swinger, singin' like a singer I'm lookin' for your finger or your ho so did you bring her Ah I'm just bullshittin', almost time for quittin' There's money to be made and booty to be hittin'

Look and you will see, Dre's that's who I be A divine incline of mine is studio time
