

Blow My Mind

Black Stone Cherry

The party's died, the lights alone
The night is young but the story's old
I'm too alive and I'm too alone
We've got the time so lets take it slow.

Open minds are either side
The strangest things are friends of mine
Into the dark out of the light
We've spent the day so lets burn the night.

Yeah lets burn the night

So come on! (Blow my mind!)
Come on baby give it one more try
Lets get real high, take a trip to the other side
Yeah! Feels so right!
Tell you, make me wanna hit rewind
Oh! Blow my mind
Come on baby do it one more time.

[?] and rise the restless souls
Chasing storms where the cold wind blows
Take a chance reach for the sky
Listen close, hello, goodbye

city [?] and black charades
Sleepless nights and endless games
Into the dark out of the light
We've spent the day so lets burn the night.

Yeah! Lets burn the night

So come on! (Blow my mind!)
come on baby give it one more try
Lets get real high, take a trip to the other side
Yeah! Feels so right!
Tell you, make me wanna hit rewind
Oh! Blow my mind
Come on baby do it one more time.

So come on, blow my mind
Come on baby
Lets get real high, take a trip to the other side
Yeah! Feels so right!
Tell you, make me wanna hit rewind
Oh! Blow my mind

Come on baby
Oh! Blow my mind
Come on baby do it one more time.
Lets get real high, take a trip to the other side
Yeah! Feels so right!
Tell you, make me wanna hit rewind
Oh! Blow my mind
Come on baby do it one more time.
