

# Peace Is Free

Black Stone Cherry

Everybody feels blue sometimes  
You gotta keep your head up and keep on trying  
And if you feel the urge to raise your hand  
You can start a revolution or start a band

You better sing your song and sing it loud  
But you better do it here and you better do it now  
'Cause this is one short life that we live  
There's some people 'cause this is what my song says

Don't you bring your sadness down on me  
Peace is free  
There's a sign up ahead darling waiting on me  
Can't you see?

Well, I know times can get a little tough  
You gotta lean on your brother, you can't give up  
Forget about your problems and forget about your pain  
Raise up our glasses and forget about our hate

Don't you bring your sadness down on me  
Peace is free  
There's a sign up ahead darling waiting on me  
Can't you see?

Yeah, I know, I know it's not so bad  
But if you wanna take a stand, yeah

Don't you bring your sadness down on me  
Peace is free  
There's a sign up ahead darling waiting on me  
Can't you see?

Can't the whole world love one another  
Throw down your weapons, fix all the hunger  
Don't you bring your sadness down on me  
Peace is free, peace is free
