

Rescue Me

Black Stone Cherry

What if I said I believe
Would you rescue me?

Am I worthy or am I worthless?
Have I run so far that there's nothing left?
I've got demons that you won't believe
This ghost in my heart slowly killing me

The choice is up to you
And only you can know the truth
There's a love that's in your eyes
That could give light to the blind
And what if I said I believe
Would you rescue me?

[Verse 2: Chris Robertson]

I let this poison take control of me
A walking shell of what I used to be
This can't go on, my mind's a loaded gun
Release this trigger, why are you waiting, I'm not the only one

The choice is up to you
And only you can know the truth
There's a love that's in your eyes
That could give light to the blind
And what if I said I believe
Would you rescue me?

The choice is up to you
And only you can know the truth
There's a love that's in your eyes
That could give light to the blind
And what if I said I believe
Would you rescue me?
