

# Frozen

Black Sun Aeon

In this cold, calm damnation  
Six feet under below the ice  
The hell stays still  
The hell stays freezing

I don't bleed  
Frozen blood doesn't flow  
Death came for me this winter  
Death, white as snow

I don't feel  
Ice covered my soul  
My breathe was taken  
My skin turned cold

Since daylight died  
In darkness lay the shadows of the sun  
The only shine comes from the burning sky  
Northern light, shed your fire

I don't bleed  
Frozen blood doesn't flow  
Death came for me this winter  
Death, white as snow

I don't feel  
Ice covered my soul  
My breathe was taken  
My skin turned cold

Into the dark  
Where you can't see  
But I breathe free  
I want you to leave me

Into the dark  
I want you to lead me  
Winter light  
You never saw me
