

## River

Black Sun Aeon

Freezing string that purifies  
But ???? like tears  
With his power overwhelming  
And who win his will

Beware the blade of frost  
The winter will claim its sacrifice  
The cold funeral awaits in the river of ice

Break on peace where no lie devil's will  
To found and end this  
We should give that once in your face  
Death knows your name

Beware the blade of frost  
The winter will claim its sacrifice  
The cold funeral awaits in the river of ice

Beware the blade of frost  
The winter will claim its sacrifice  
The cold funeral awaits in the river of ice
