

## Tip of the Iceberg

Black Uhuru

Radio TV news, Crying of a nation  
Drugs and child abuse, We say evil rules  
Famine, Winds of war, Eternal pollution  
What it's all been for, Where it's leading to  
Wake up people now, Show you've got some fire  
We have everything, Everything to lose  
Don't let evil win, Vanity desire  
Show them what is good, Show them what is true  
(Chorus: Black Uhuru)  
Tip of the iceberg  
The laws of man design our future  
Tip of the iceberg  
It's S-O-S earth in distress  
Tip of the iceberg  
This old new message can't be clearer  
Tip of the iceberg  
The roll of man called to the test  
(Black Uhuru)  
Goodness, Helpfulness, These should be remembered  
History regret, Nothing we can do  
Living laws of man, Walking on a wire  
Clean up time is here, Long it's overdue  
Now we count to ten, Live our lives together  
We all play a part in this puzzle too  
(Chorus: Black Uhuru)  
(Black Uhuru)  
Vision how this world would be, With universal love  
Respecting the true right of everyone  
Feed the hungry, Help the poor  
Free the people, We want more  
(Ice-T)  
Peace, An interesting concept  
A dream world, Where no souls are swept  
Under the rug, Just brotherly love  
That's why I pray to the heavens above  
That someday somewhere we will learn to care  
Cause if we don't, Then we should prepare  
For certain destruction of this earth we live  
People take, But we must learn to give  
Black man, White man, Yellow man, Red man  
Must understand, The race is hu-man  
The earth is ours, The air we all must breathe  
Every mountain, Each and every sea  
Share, Care, The answer's in there  
And if not, We gonna live out a nightmare  
As I speak on the streets, Gunshots are heard  
It's just the tip of the iceberg  
(Chorus: Black Uhuru)
