Pissed And Driven

Black Water Rising

A million mile an hour Punch a hole in the sky Hearts race with adrenaline A lifetime in the blink of an eye

It's an atomic reaction An uncontrollable blast There is nothing deeper There is nothing as vast

(Chorus)

Engines in overdrive
Screaming like a demon when I come alive
Push that needle to the red
Then I do it again get driven
Pissed and driven

Conquer the mountain bring on the fight Within it awakens finally seeing the light It's beyond the threshold and faster than fear To live for the moment when the moment is here

(Chorus)
