

Womanly Panther

Black

I can't resist a feeling
A soul in need of saving
Man in a boat that's sinking
Don't know what I'm drinking
I know just what you're thinking;
that you could do without my aaaahhhhhh...

And I don't know how
Between the preacher and the plough
We found the way to where we are
Hot dogging in a stolen car

Womanly panther
Be careful how you use it soldier
Don't have your mind made up for you
It's time to choose
Not get it any way you can

You come down off the ceiling
I see your fingers healing
It's not my heart she's stealing
I know the place they've been in
I think you'll find that you've got
More than you thought you had not
If you were tempted from the start
The start...

I must let loose
I need to be free
Free to do what's clear
What would be toothsome ...is a threer!

Womanly panther
Be careful how you use it soldier
Don't have your mind made up for you
It's time to choose
Not get it any way you can
Womanly panther
My mind was made up for me mama
I was born for joy 'cause
I was born a boy and I'll take it any way I can
