

All My Lovin'

Blackbear

Just a small town girl
Broke my heart like a small town girl
She lied to my face, then she slept around
And she dug my heart right into the ground
Six feet under, under the covers
And I thought that maybe she could be a little bit more than a bit of a whore
I guess not
She was from that M I S S I S S I P P I
She's from the Mississippi River and she's looking to find
Another lover to spend all the nickels and dimes on her
On her
So should I hang around or start running away?
Cause every time I stay
She leaves my heart on the floor
What you doing this for?
I gave her all of my all of my lovin
Oh, but she threw it and threw it away
I gave her all of my all of my lovin
Oh, but she threw it and threw it away
Ooh
She threw it and threw it away
No
Just a big city kid, never really thought I'd be in this type of shit but
She was like a thief in the night
I thought that maybe she could make herself a good bride- wrong
Thought the stars were aligned- wrong
Thought she was from the east side- wrong
Oh, no wrong wrong
She's from the Mississippi River and she's looking to find
Another man to spend their money
So should I hang around or start running away?
Cause every time I stay
She leaves my heart on the floor
What you doing this for?
I gave her all of my all of my lovin
Oh, but she threw it and threw it away
I gave her all of my all of my lovin
Oh, but she threw it and threw it away
Ooh
She threw it and threw it away
No
I gave you all of my lovin
And you threw it away
Cause you and me got nothin in common
You and me got nothin in common
I should have turned and ran away
I don't know why I decided to stay
I gave her all of my all of my lovin
Oh, but she threw it and threw it away
I gave her all of my all of my lovin
Oh, but she threw it and threw it away
Ooh
She threw it and threw it away
No
Why'd you throw out my lovin?
Why'd you throw out my lovin?
