

Ooh, ay

I would know exactly how you felt but we don't talk now  
Used to hold you naked in my arms, I know you're gone now  
Everything was right and now it's wrong now  
It's how I'm feeling on god now (yeah)  
Post another snap, you thinking you are a big star now  
Look at who I follow just to stalk now, quit playing 'round  
You a klondike, you'd do anything for a bar now  
See you around the world, you make the distance seem far now

Oh, oh, oh-oh, I leave you alone  
Make me wanna go, oh, oh-oh  
Make me wanna leave my hometown  
Away from Hollywood girls in the valley  
I know that all 'em tweets you posting is about me  
I got to go, oh, oh-oh  
I'll stay out of Cali for a while (Cali for a while)  
I'll stay out of Cali for you now  
I'll stay out of Cali for a while

Every shorty think they too cool for you  
But you get used to it  
That's just how it is in California (in California)  
Swear they love it when you act like you don't want 'em  
They all biting on the check and they know who got 'em next  
If it ain't about money then they can't do nothing for ya  
They gonna take what they can give regardless  
She just want shove a little rich nigga with a little oh ye  
Someone that she know won't ever put up with the bullshit  
Someone she can get drunk and get high and be no good with  
Someone who see through her without looking no

I ain't got no time for these hoes  
And I might lose my mind  
(If I don't go)  
Get some piece of mind

Away from Hollywood girls in the valley  
I know that all 'em tweets you posting is about me  
I gotta go, oh, oh-oh  
I'll stay out of Cali for a while, yeah  
I'll stay out of Cali for you now (oh)  
I'll stay out of Cali for a while

Aah, yeah, ooh, oh-oh, yeah
