Miss U

Blackfield

They said you're in love again And I tried to hide my pain I was buried in my bed With your pictures in my head

You were living another life It cuts me like a knife I hope you understand I'm the one who's left behind

Tomorrow you'll be gone And I'll miss you Yeah I'll miss you Yeah I'll miss you

They said you're in love again And my eyes start to burn Wherever you are now I wish you could hear my silent sigh

It's not that I try to blame It's just kind of a rainy day I hope you understand I'm the one who's left behind
