## Where Are We Going from Here

## **Blackmore's Night**

On a long road, miles to go
Its winding and cold and its covered with snow
But I ask you what we all want to know
Where are we going from here...

Lines on my face, lines on my hands Lead to a future I don't understand Some things don't go as they're planned... Where are we going from here...

Tracing the trails through the mirrors of time Spinning in circles with riddles in rhyme We lose our way, trying to find Searching to find our way home...
Trying to find our way home...

As the day dies, with tears in our eyes There's too few hellos and too many goodbyes Silence answers our cries...where are we going from here...

We're all on this road, with miles to go Braving new pathways into the unknown But who do you ask, when no one really knows Where we are going from here...
