

# Small Town Big Time

Blake Shelton

Yea, Hollywood Boulevard  
Looking down, seeing stars  
90210, Rodeo is Rodeo  
Glad I hit it, glad I did it and I'd do it again  
Yea, and hang with my friends

With them red Maserati's and them tuned up bodies  
And everybody gonna be the next somebody  
Yea, this place is a trip  
Hey but meanwhile back in the stick

Somebody's having a small town big time night  
Somebody's rocking the main street with red tail lights  
Somebody's cranking it up or falling in love  
Or keeping the buzz sipping on a little moonlight

Yea, they know how to rock  
Out in the boondocks  
'Cause believe me I've been there  
Somebody's having a small town big time night, somewhere

Yea, two lane town squares  
Cotton queens, county fairs  
With a water tank  
Got 100 girls' names under the paint

Glad I hit it, glad I did it and I'd do it again  
Yea, I miss my friends

With them pick 'em up trucks and them dirt road ruts  
And all them country girls get to strutting their stuff  
East, west, north or south  
Yea you better believe that right about now

Somebody's having a small town big time night  
Somebody's rocking the main street with red tail lights  
Somebody's cranking it up or falling in love  
Or lighting it up with a KC spotlight

Yea, they all got the swerve  
Down back in their hometown  
I wish that I was there  
Somebody's having a small town big time night, somewhere

Somebody's having a small town big time night  
Somebody's rocking the main street with red tail lights  
Somebody's cranking it up or falling in love  
And twisting it up and dodging them blue lights

Yea, they know how to kick it  
Way out past the limits  
Cause baby I've been there  
Somebody's having a small town big time night, somewhere

Yea, somebody's having a small town big time night, somewhere  
I wish that I was there  
Yea, I wish that I was there
