

Sweet Vampirous

Bleeding Through

i've cursed this day with no regrets, with no compromise. curse
your grace.
shallow, this hatred that presses its finger to my lips. simple
love is to
blame. i won't lay my head down with this shame. kiss the sky.
i'm always waiting
here on the ground, on the ground. be warned. shallow, this hat
red that
presses its finger to my lips. be warned, she'll kill you. be w
arned, she'll kill us
all. be warned, she'll kill you. be warned, she'll kill us all.
be warned. be
warned, she'll kill you. be warned she'll kill me.
