

## For This Love

Blindspott

Let's all bleed  
I'll take the blood  
As they pass you around  
Take the best of me  
And I will die  
Before I let you down

Stay with me  
I am the hurt  
That you don't want to know  
As long as you're with me  
And we're here  
We're not dying alone

I will die  
Away from you  
Let you down

And for this love I  
Am blessed with the curse of you  
I would give my last breath for  
This love  
For this love  
For this love

This love  
...love

And for this love I  
Am blessed with the curse of you  
I would give my last breath for  
This love  
For this love  
For this

...love  
...love

For this  
..love

This love
