

Dopamine

Bliss n Eso

When I lost my way
When I'm on my knees
When I'm coming down
You're my dopamine (do-do-dopamine)
When there's no way out
When I don't believe
When I'm coming down
You're my dopamine (do-do-dopamine)

Yeah
Man, I been around the rock a couple times
Read the details in-between a bunch of lines
The Devil, but fuck it, tonight the moon is full
And I'm out with my wolves, we all dressed in wool
Slow-motion through this giant masquerade ball
Everybody got their mask on and face off
Yeah, you're damn right we having fun tonight
I got shit to do, but I've had a few so fuck it right
I live a year round festival season
All it takes is a few drinks and I'm texting my demons (hello)
Slow dancin' with destiny on this tightrope
I hope I make it home to you before the light shows
And I know I said I wouldn't do this again
But baby right now, you're my only friend

When I lost my way
When I'm on my knees
When I'm coming down
You're my dopamine (do-do-dopamine)
When there's no way out
When I don't believe
When I'm coming down
You're my dopamine (do-do-dopamine)

When I'm falling, falling, falling
You're the drug I need
When I'm falling, falling, falling
You're my dopamine

Yo
You see those dark clouds covering my conscience?
I need help, I'm in love with my own monsters
I did it again, but never is it by mistake
Until you're wide awake and life feels like a tidal wave
Night and day I used to welcome the high
And at that moment, black roses fell from the sky
It's like, "They want the truth," well fuck it man, I'll be honest
You may see a happy chap, but not a recovering alcoholic
You can see I'm blessed, but not me being self-abusive
You can see my success, but not my wife that got me through it
And like a ray of light, I see my baby boy
You make your mother glow, you bring me crazy joy
Too many reasons to love life
Watching the sunrise in my son's eyes

When I lost my way
When I'm on my knees

When I'm coming down
You're my dopamine (do-do-dopamine)
When there's no way out
When I don't believe
When I'm coming down
You're my dopamine (do-do-dopamine)

When I'm falling, falling, falling
You're the drug I need
When I'm falling, falling, falling
You're my dopamine

When I lost my way
When I'm on my knees
When I'm coming down
You're my dopamine (do-do-dopamine)
When there's no way out
When I don't believe
When I'm coming down
You're my dopamine (do-do-dopamine)

When I'm falling, falling, falling
You're the drug I need
When I'm falling, falling, falling
You're my dopamine
