

Sold My Soul

Blitz Kids

I've been hiding where nobody goes
Sick and tired of the same bloody rules
I gave you nothing but it's all that I own
You should know how it goes

I've been tired I've been wire, I've been lost
Starting fires with the liars that I've crossed
I gave it everything no matter the cost
Least I earned what I got

Don't try to save me
I've already sold my soul
And all I know is I'm gonna leave my beating heart behind

Find salvation however you want
Pray too god or an inverted cross
No matter what you do the future is dark
If you don't leave a mark

Don't try to save me
I've already sold my soul
And all I know is I'm gonna leave my beating heart behind
Me, I'll fight till my blood runs cold
And when I go, I know that I won't need another try
I'm gonna leave my beating heart behind

For all I know we're all just ghosts
But you can't erase me

Don't try to save me
I've already sold my soul
And all I know is I'm gonna leave my beating heart behind
Me, I'll fight till my blood runs cold
And when I go, I know that I won't need another try
I'm gonna leave my beating heart behind
