

Bloodletting

Blitzkid

there's a crack in the mirror and a bloodstain on the bed
there's a crack in the mirror and a bloodstain on the bed
oh you were a vampire and baby i'm walking dead
oh you were a vampire and baby i'm walking dead

i got the ways and the means to new orleans
i'm going down to the river where it's warm and green
i'm gonna have a drink and walk around
i've got a lot to think about

there's a rocking chair by the window down the hall
there's something there by the shadows down the hall
oh you were a vampire and baby i'm nothing at all
oh you were a vampire and baby i'm nothing at all

i got the ways and the means to new orleans
i'm going down to the river where it's warm and green
i'm gonna have a drink and walk around
i've got a lot to think about

let's dance in the garden in the middle of the night
dancing out in the garden in the middle of the night
oh you were a vampire and i may never see the light
oh you were a vampire and i may never see the light

i got the ways and the means to new orleans
i'm going down to the river where it's warm and green
i'm gonna have a drink and walk around
i've got a lot to think about

i got the ways and the means to new orleans
i'm going down to the river where it's warm and green
i'm gonna have a drink and walk around
i've got a lot to think about
