Worlds Away

Blood On The Dance Floor

I'm walking down a lonely road One that I've never known I hope it leads me home

Sometimes I feel so far away Can't find the words to say I'm exiled on my own

Give me something to believe

I'm worlds away I'm worlds away I'm worlds away Tryin' to find my way home

I look to the sky right over me Hoping you see the stars I see It makes me feel less alone

There's never one place that I can stay Sorry my world's so far away One day I promise I'll be home

Give me something to believe

I'm worlds away I'm worlds away I'm worlds away Tryin' to find my way home

I need someone to take my hand I need someone to understand I'm standing on the edge And I'm looking down

I'm worlds away I'm worlds away I'm worlds away Tryin' to find my way home

Tryin' to find my way home Tryin' to find my way home Tryin' to find my way back home
