

Melena

Blood Red Throne

Two decades of hateful bond
Deranged unholy union
The seed of madness is planted
To age of disgracefully

Born from incestuous rape
Disciplined beyond comparison
Evil begets evil
Like father like son

Strychnine induced hematesis
Gastrointestinal infection
Feverish ravings of lunacy
Murderous madness
Melena

Phosphorous odors evaporate
Beneath dirt cellars secrets hide
Sweet smell of decomposition
Singes the olfactory system

Invisible killers lurks
Chemically engineered
One final hors d'oeuvre
To sleep cataleptic adieu

Tar-like feces - blood red stool
Melena
