

## The Road to Ruin

Blood Stain Child

In the apparently peaceful world  
Towns are crowded with people and cars everywhere  
No one notice and see that safety always doesn't assure

Murders are everyday occurrence  
Now they go on...  
Crimes and disputes never die out

The world that perfect peace is not  
Turns the desire of people into chaos

We and wars live side by side  
We don't know when to die  
The reliance of the world in nuclear warhead  
It's symbol of military strength  
Humans beings voluntarily choose the road to ruin
