

# Hooray The Darkness

## Bloodsucking Zombies from Outer Space

You will die before you wake  
All for the cause of evils sake  
The time of doom is close at hands  
And darkness shall rule this godless land  
With diabolic trix  
And we are blessed with 666

Hooray the darkness  
After sunset our glory shines so bright  
And we will dance on your graves  
Until dawn repels the night  
Although the dark has so much might  
Soon it will conquer the fucking light  
And when the light has been snuffed out  
You will here my demonic shout:  
“tonight - Leviathan be my guardian guide!”

Hooray the darkness  
After sunset our glory shines so bright  
And we will dance on your graves  
Until dawn repels the night  
Contemn the daylight - get ready for the night
