

Kids of the Apocalypse

Bloodsucking Zombies from Outer Space

Our voice so ragged we can barely sing
We cough a lotta blood and got bad nosebleeds
Big red blisters on arms and legs
This terror came from above our heads
Radiation Santa
We couldn't take cover
The sky was pissing gamma waves
We could not hide, there was no escape
We are the kids (kids!) of the apocalypse
We're the last of our kind in a world full of shit
We paid the price for man's own sins
We are the kids (kids!) kids of the apocalypse
Poison water makes us sick
We got a gas mask, we can't breathe
The sunlight burns our skin real bad
Oh my God, my tattoos melt away
We may look funny
Cuz you're malformed, honey
We have scabies, we have a rash
We're completely worn out and our life is a mess
We are the kids (kids!) of the apocalypse
We're a bunch of punks in a world full of shit
We didn't [?] and we [?] extinct

We are the kids (kids!) kids of the apocalypse
We are the kids (kids!) of the apocalypse

We paid the price for man's own sins
We are the kids (kids!) kids of the apocalypse
We may look funny
Cuz we are malformed, honey
We got scabies, we got a rash
We are so totally bored and our teeth are a mess
We are the kids (kids!) of the apocalypse
We're a bunch of punks in a world full of shit
We didn't [?] and we [?] extinct
