Bloodsucking Zombies from Outer Space

We are surfing on a meltdown
That's the energy we need
We drink, we eat, we breathe pure electricity
It's gonna makes us roll, it makes us rock
Kickstarted by electric shocks
We're going for plutonium
It makes us feel so strong

This is the nuke sound that will make you glow
Turn on the volume on your stereo

Hey you out there!
You're tuned to Radio Active
Radiation Rock for the nuclear infected
Hey you out there!
You're tuned to Radio Active
Toxic Terror Tracks for atomic adolescents

We're feeding on nuclear power
It's bursting through our veins
An atomic driven engine is pumping in our chest
Let's rock the core, heat up the drums
We grow radioactive plants
High Voltage is what really matters
Even if reactors shatter

A gigantic flash illuminates the air
This show is broadcasted everywhere

Hey you out there!
You're tuned to Radio Active
Radiation Rock for the nuclear infected
Hey you out there!
