

What Tom Said About Girls

The Blow

All day long you have the day
And when the sun sinks down it's sunk away
And then what do you have?
What, what do you have, in the night?
What do you have?
What do you have?

Well, I got a ride, it's hot, I drive it
To pay the gas I've got to 9-5 it
The engine turns, it keeps the heat alive for the
ladies

All the girls in pictures, girls in bars, yeah
Everybody knows a girl requires a car
I drove one out to look up at the stars
and she was like 'Tom do you ever notice the spaces
inbetween the stars?'
And I was like, 'You know, well'

I've seen a hole and I aim to fill it
If that hole's got a heart I've got the means to thrill
it
If that hole's got a heart I've got the means to fill
it
If that hole's got a heart

Just keep the girls, keep the girls girls burning
Just keep the girls, keep the girl girls burning
Please, keep the girls, keep the girls girls burning
Cause their hot circles give me give me some hope, yeah

Keep your girls, keep your girls girls burning
Just keep your girls, keep your girls girls burning
Please keep your girls, keep your girls girls burning
Cause, their long hair baby, baby's a rope, yeah

You know I see you walking down the street
When I'm driving in my car, you looked good to me
Cause you looked like a beacon of light
Just beaming in the night, I feel safe
So I'm like 'Hey Baby!'

Just to exist on this planet
From the dark places
Baby, who knows whats lurking there
I'm a man, I'm on the move
Just to fill it in with a pretty face, yeah
Light it up like a billboard on the hillside with a
girl on the horizon

Just keep your girls, keep your girl girls burning
Please, keep your girls, keep your girl girls burning
Cause their hot circles give me, give me some hope,
yeah

Keep the girls, keep the girl girls burning
Just keep your girls, keep your girl girls burning

Please keep the girls, keep the girl girls burning
Their long hair baby, baby's a rope yeah
