

As Wicked As They Come

Blowsight

This is an emergency
I'm killing the air in me
This isn't a time to be on your own
So Lady Serenity, this isn't a fantasy
This isn't a dream so wake up my love

Please let me into your heart
I'm afraid I might send it away
I fell in love from the start
And I'm afraid I will change it today

Let's merge us into one
The fire is burning the story of us has begun
Let's show them how it's done
As wicked as they come

So what if we never took
For granted, the mighty book
I never believed in this one above
You're planning your own demise
A personal suicide
You're digging a grave for us all my love

I fell in love from the start
And I'm afraid I will change it today

Let's merge us into one
The fire is burning the story of us has begun
Let's show them how it's done
As wicked as they come

You take the lies and put me in this open shell
You criticize but nonetheless I deny your hell
[Bring me down]
So what is rest when you can't be best and you change your side
Somebody fights when the wrong is right but you cannot hide
[Bring me down]

Let's merge us into one
The fire is burning the story of us has begun
Let's show them how it's done
As wicked as they come

Boat/rudder
The fire is burning the story of us has begun
Shed evil
As wicked as they come
