

# Blackout Time

Blowsight

It doesn't matter if you're looking at me  
I'm not cookin' for you, no dinner for you baby  
Your sweet tooth is on fire for me  
Let it burn burn burn  
burn burn burn, baby  
The dark eyes and the Betty Page bangs  
A padded bra and the second base hang  
The "loosen-up" attitude in the way that only she can

I need a blackout time  
Cuz you're everywhere  
I need a primetime  
Everywhere  
My doctor said I'm a man on despair  
I need a primetime  
Everywhere

I shared the dream of a polkadot clan  
A Johnny Cash fan, in an Italian tan, lady  
A cuban roll rollin' over my skin  
So let it burn burn burn  
I think you need another redefined change  
The lingerie and the makeup all strange  
Tell me all, let me get another reason to be

I need a blackout time  
Cuz you're everywhere  
I need a primetime  
Everywhere  
My teacher said I'm a man on despair  
I need a primetime  
Everywhere

So where's the enemy now? Everywhere  
Where's the love I've found? Everywhere  
Where's the people in need? Everywhere  
Where's the world that bleeds?

I need a blackout time  
Cuz you're everywhere  
I need a primetime  
Everywhere  
My teacher said I'm a man on despair  
I need a primetime  
Everywhere

My manager said I'm a man on despair  
I need a primetime  
Everywhere

Degradead said I'm a man on despair  
I need a primetime  
Everywhere
