

# Time Well Spent

Blue County

That '73 Monte Carlo had a car load of  
Schitz and Innocence  
Half a pack of daddy's cigarettes and  
A casset of Jimmy Hendrix  
We parked beside the railroad tracks  
Kick back and wonder what it might be like  
If we were president  
Let another fade away, wastin' time well spent

A million miles of dirt road dust  
Learnin' love or lovin' lust  
Tastin' life as it came to us  
On a dead end road that had no end  
Wishin' we could make time fly  
Not knowin' it was flyin' by  
While we were makin' plans  
That didn't make sense  
Waistin' time, waistin' time, waistin' time  
Well spent

She matched my tuxedo  
To a 't' in those pictures  
On my floor  
As I stared at me, I could finally see  
What she saw when she said  
She couldn't see me anymore  
But I'll never forget the night  
We parked that prom night ride  
On the side of a road  
We've never been  
And let another day fade away  
Waistin' time well spent

A million miles of durt road dust  
Learnin' love or lovin' lust  
Tastin' life as it came to us  
On a dead end road that had no end  
Wishin' we could make time fly  
Not knowin' it was flyin' by  
While we were makin' plans  
That didn't make sense  
Waistin' time, waisitn' time, waistin' time  
Well spent

Bitter sweet what might have been  
Comes to mind every now and then  
Makes me want to go back again  
Waste some time, waste some time, waste some  
Time well spent

A million miles of durt road dust  
Learnin' love or lovin' lust  
Tastin' life as it came to us  
On a dead end road that had no end  
Wishin' we could make time fly  
Not knowin' it was flyin' by  
While we were makin' plans

That didn't make sense  
Waistin' time, waistin' time, waisitn' time  
Well spent  
Time well spent
