

The Red and the Black

Blue Öyster Cult

Canadian mounted baby, a police force that works
Red and black, that's their color scheme
Get their man, in the end

It's all right [repeat four more times]
Oh yeah my honey knows it's all right
It's all right [repeat four more times]
Oh yeah my baby knows it's all right
C'mon little husky

Frontenac Chateau baby
I'll cross the frontier at ten
Got a whip in my hand baby
And a girl or a husky at leather's end

It's all right [repeat four more times]
Oh yeah my honey knows it's all right
It's all right [repeat four more times]
Oh yeah my baby knows it's all right

Hornswoop me bungo pony, dogsled on ice
Make a dash for freedom baby don't skate on polar ice
It's too thick to be sliced by the light
Of long and white polar nights

It's all right [repeat four more times]
Oh yeah my honey knows it's all right
It's all right [repeat four more times]
Oh yeah my baby knows it's all right
