

# Shed My Skin

Blue Rodeo

You've got troubles on your mind  
Keeps you away from me  
There's no sense in denying  
And I've cursed myself for the longest time  
And now I find I just don't mind

Leave your coat beside the door  
Come and lay here  
On this blanket on the floor  
And we'll throw our candles  
In the flames tonight  
Set it right try to set it right

When all our tears coming down are gone  
And I shed my skin before this evening's done  
If we never get the chance  
To come back here again  
I'll understand you know I'll understand  
You know I'll understand

All the spirits of the night  
Watch us sleeping here  
Beside the firelight  
And I'll hold my tongue  
Till this moment's gone  
Kiss the dawn  
Stay to kiss the dawn
