Let's Do It Together

Life can be hard Light before darkness And things you thought were certain Come undone

Friendships turn cold And lovers grow older And people make excuses For what's gone bad

We'll find another way You don't have to be alone

Let's do it together Let's do it together Let's do it together

Rivers run dry Tears that won't cry And pleasures you can count on Turned to dust

Governments lie Politicians tire me And nothing on my TV Is getting any better

This time won't be the same I'll be with you all along

Let's do it together Let's do it together Let's do it together

Together, oh

You are, you are the one You are, you are the one You are, you are the one You are, you are the one

You are, you are the one Let's do it together You are, you are the one Let's do it together

You are, you are the one Let's do it together You are, you are the one

You are, you are the one Let's do it together You are, you are the one Let's do it together

You are, you are the one Let's do it together **Blue Six**

You are, you are the one Together Together Together Together You are, you are the one You are, you are the one You are, you are the one You are, you are the one
