

Gene by Gene

Blur

I got a brain in left hand drive
I don't sleep other side
I ride a bullet like I'm Steve McQueen
Each town I intervene

A gram of reef and the barn is jumpin'
It's alright we got time
Got a radio hit in mind
Can't see, am I blind?

Every night and day
I'll never forget
In the U.S.A.
I delete myself

Got to know you gene by gene
You're my jellybean
Get out the shower and I'm Force 15
When I'm dead, when I'm clean

Fatboy and the barn is jumpin'
It's alright, it's just tight
Got to get into a better business
Deep down happiness

Every night and day
I'll never forget
In the U.S.A.
I delete myself

I delete myself, I delete myself
I delete myself, I delete myself
I delete myself, I delete myself
I delete myself, I delete myself
