Black Water Tides  
(Bo Bice)

Well, I've never tried the ocean The tide swept me out to sea I  
swam in search of islands Let the salt air breeze carry me  
No, I've never tried the ocean Been swept out about a million m  
iles I would crawl back to hell for a blanket But I'll never se  
e the black water tides No, I'll never see the black water tide  
s

Chorus: Black water tides

No, I never ever died Now the ocean is my home Life's like wate  
r it keeps flowing on

I've never seen my front porch Been locked away most of all my  
life I've only seen the garden Where the dead fruit grow all ni  
ght Where the dead fruit grow all night

Repeat Chorus:

Well, I've never seen the ocean But I've been washed out now ab  
out a million miles And a boat's been sent in the middle of a h  
urricane And I'm thinking it's time to fly

See, I'm thinking it's time to fly

No, I've never seen the ocean.....
