If I can't find my baby, I'm gonna run away and hide

2. I been pacing around the room hoping maybe she'd come back

Pacing 'round the room hoping maybe she'd come back

Well, I been praying for salvation laying 'round in a one room

country shack

3. Gon' walk down that dirt road until my eyes begin to bleed

Gon' walk down that dirt road until my eyes begin to bleed

'Til there's nothing left to see, 'til the chains have been
shattered and I've been freed

4. I been lookin' at my shadow, I been watching the colors up above

Lookin' at my shadow watching the colors up above

Rolling through the rain and hail, looking for the sunny side
of love

5. Gon' walk on down that dirt road 'til I'm right beside the sun

Gon' walk on down until I'm right beside the sun

I'm gonna have to put up a barrier to keep myself away from
everyone.
