

What Was It You Wanted

Bob Dylan

D5

1. What was it you wanted?
Tell me again so I'll know.
What's happening in there,
What's going on in your show.

Gm

What was it you wanted,
Could you say it again?

D5

I'll be back in a minute
You can get it together by then.

2. What was it you wanted
You can tell me, I'm back,
We can start it all over
Get it back on the track,

You got my attention,
Go ahead, speak,
What was it you wanted

B5 A5

When you were kissing my cheek?

3. Was there somebody looking
When you give me that kiss
Someone there in the shadows
Someone that I might have missed?

Is there something you needed,
Something I don't understand.
What was it you wanted,

Fsus4 A5 D5

Do I have it here in my hand?

A5

Bsus2

R: Whatever you wanted

A5

Bsus2

Slipped out of my mind

A5

Bsus2

Would you remind me again

A5

Bsus2

If you'd be so kind.

A5

Bsus2

Has the record been breaking,

A5

Bsus2

Did the needle just skip,

Gm6

Is there somebody waitin',

A5

B5

Em/B Am/C

Was there a slip of the lip?

4. What was it you wanted
I ain't keepin' score
Are you the same person
That was here before?

Is it something important?
Maybe not.
What was it you wanted?

B5 A5 D5

Tell me again, I forgot.

R: Whatever you wanted
What could it be
Did somebody tell you
That you could get it from me,

Is it something that comes natural
Is it easy to say
Why do you want it,
Who are you anyway?

D5 Am/C

5. Is the scenery changing,
Am I getting it wrong,
Is the whole thing going backwards,
Are they playing our song?

Where were you when it started
Do you want it for free
What was it you wanted

Fsus4 A5 D5

Are you talking to me?
