Star bright so stunning and brilliant
The circle keeps spinning around me
My love, my God, what have I done to you
I've lost my one in a million

I go insane a thousand times
My circle of friends is shrinking down
I get so far down I can only hope
I jump through the way it gets lonely now

It keeps spinning around me It keeps spinning around me It keeps spinning around me

For Tuesday I walk to the village
And I know that my vote doesn't count any more
I got my opinions about you
I keep them inside of the ballet box

I stuff all my thoughts and my feelings down I get so far down I got too far gone I've lost my one in a million Disappears my ballonet is gone

(Reaching out taking my hand)
Oh, you make me understand that life is too short now
(Reaching out taking my hand)
And we don't have the time we had when we were younger

My love, my God, I am sorry For everything we've been through When I cry, I see millions of circles And the sky so blue

No body deserves to be lonely
No one should be left alone
Because time doesn't wait it will probably accelerate
As the days and the months and the years go by

When I cry, I see millions of circles When I cry, I see millions of circles now

My love, my God, I am sorry For everything we've been through When I cry, I see millions of circles And the sky so blue
