

## Two to Do

Bob Welch

One is a number  
Meant for another to make it two  
You been the lonely one too long  
Waitin' for the one for you  
I know the feelin'  
I'm seein' in your eyes  
Yeah I know a way  
That we can escape tonight

Baby, what I've got in mind tonight  
Takes two to do  
Baby, what I've got in mind tonight  
Is me and you  
When you're alone the night can last forever  
Yeah it takes love to get you through  
And love takes two to do  
When the night falls hard  
Baby, two hearts are better than one  
Baby, we could light a fire tonight  
That'll burn till the morning comes  
Lyin' in your arms  
And holdin' you in mine  
We're gonna make our escape tonight

When you're alone  
When you're alone the night can last forever  
If you're alone  
Yeah baby, right off we belong together  
'Cause all we really need is each other  
Yeah it takes love to get you through  
And love takes two to do  
Baby, what I've got in mind tonight  
Takes two to do  
Baby, what I've got in mind tonight  
Takes two to do  
Baby, what I've got in mind tonight  
Takes two to do  
Baby, what I've got in mind tonight  
Takes two to do
