Breaking Up

Bobby Caldwell

I believed when you said what you said, I believed
And I trusted you can conceive
Or our love being dead, I believe
That your days are few

What I need, like the forests need the rain
How I love but not feel pain from you
If that's a no can do
Breaking up, words that no one wants to say
Breaking up, it's so hard to walk away
Breaking up, if my love means anything to you
Baby think it through, or we're breaking up

I have tried to do right, day and night, lord I've tried
I've been good to you every time
I get burnt every time how unfair
Did you ever really care?

What I need, like the forests need the rain
How I love but not feel pain from you
If that's a no can do
Breaking up, words that no one wants to say
Breaking up, it's so hard to walk away
Breaking up, if my love means anything to you
Baby think it through, or we're breaking up

I liked it better before we made love
It wasn't complicated and we used to have fun
I would tell you 'bout my days and you'd ask about my dreams
It was rare for us to be divided nowadays it seems
All day. We fighting over a lot of thangs
We had an argument, I had to pull away
'Cause in the second that you mad just to when I say you right
You don't mean just something you ain't even wanna say
Tripping
Now where that ain't your fault, I take a part of blame
I regret when I was lying, I was never raised
Run around town people talk about
We was papa love, in the street like a word of mouth
I ain't saying that it's easy
And I struggle about the sign that we leaving
Something in the past 'cause we need it
To let it go, while we still speaking
Last, and I will miss your smile, and always
Have a spot where we just can't go on, we gotta break
And hope we gonna find love on our faith
Yeah it's hard like a concrete wall but we'll make it
And just to think I thought that we'll be forever
Never seeing in my mind that the day will be without you
Any last words have you?

Breaking up is hard to do
