

# Call Me Up

Bobby Caldwell

Baby when you're down  
And you're feeling low  
You got to remember there's a place where you can go  
Call me up  
There's an open line  
No matter the reason, girl  
No matter the time

In any situation  
Whenever you ring me  
This is my invitation

All you gotta do is call me up  
Call me up  
If you're lonely, baby, you can call me up  
Tell me what it's gonna take to make you realize  
All you gotta do is call me up

When you're all alone  
Just give it a chance and let your hands reach for the phone  
Call me up  
And I'll make things right  
No matter the hour baby  
I'll be by your side

Inside your heart is hurting  
Too many restless nights  
Give it your desire burning

All you gotta do is call me up  
Call me up  
If you're lonely, baby, you can call me up  
Baby what it's gonna take to make you realize  
All you gotta do is call me up

All you gotta do is call me up  
Call me up  
If you're lonely, baby, you can call me up  
Baby what it's gonna take to make you realize  
All you gotta do is call me up  
Call me up  
If you're lonely, baby, you can call me up  
Tell me what it's gonna take to make you realize  
All you gotta do is call me up  
All you gotta do is call me up  
Call me up  
All you gotta do is  
All you gotta do is call me up  
Call me up  
All you gotta do is  
All you gotta do is call me up
