

## Can't Get over You

Bobby Caldwell

Though I've tried and tried again to close the door  
And forget about the love we had before  
Girl I only want this heartache to be through  
A chance to start anew  
But I can't get over you

Day and night, night and day  
Waiting for the hurt to go away  
If my heart could forget about what was  
But it never does  
Do you have advice for someone so blue  
Baby I just can't get over you

How I long to hold you in my arms again  
But the restless nights they never seem to end  
You would think by now I'd finally get a clue  
Put an end to this taboo  
But I can't get over you

Day and night, night and day  
Waiting for the hurt to go away  
If my heart could just forget about what was  
But it never does  
Do you have advice for someone so blue  
Baby I just can't get over you

My heart is stranded  
No matter what I do  
My moments of strength are few  
And baby I just can't get over you

Day and night, night and day  
Waiting for the hurt to go away  
If my heart could forget about what was  
But it never does  
Do you have advice for someone so blue  
Baby I just can't get over you
