

Game On

Bobby Caldwell

Got a reputation, I'm a real bad boy
And the world is my favorite toy
In the palm of my hand
That's why they call me "The Man"
I push the throttle
I live to close the deal
All the while trying not to feel
Nothing's getting passed me, no one sees what I see
I'm strategizing every calculated moment...

Got my game on
And the future looks bright
We're celebrating 'cause I've earned the right
So line 'em up let's drink tequila tonight
In the "House Of Blue Lights"
Game on

Negotiation, that's what I do best
I enjoy rising to the test
Tying up the loose ends
That's how my workday begins
There's speculation, "why is he on top?"
Always pushing I never stop
That's why I'm running the show
No one knows what I know
I'm strategizing every calculated moment

Got my game on
And the future looks bright
We're celebrating 'cause I've earned the right
So line 'em up let's drink tequila tonight
In the "House Of Blue Lights"
Game on

That's why I'm running the show
No one knows what I know
I'm strategizing every calculated moment

Got my game on
And the future looks bright
