

Good to Me

Bobby Caldwell

Tell me why
Every time I try to get ahead
I only end up in a vicious circle
I'm safer in bed

And sometime
I don't even wanna greet the day
But you will have some chosen words of wisdom
And that's why I say

When I'm finally at my wit's end
No one but you can heal me again
There's no doubt about it
Baby you're so good to me
When I've reached the end of my rope
When I'm all broken down and I'm giving up hope
There's no doubt about it
Baby you're so good to me

In my world
Everything is crazy in my world
It's all that I can do to keep from drowning
Pulled under the tide

I don't know
What it is exactly that you do
Everytime I'm blue you work some magic
And that pulls me through

When I'm finally at my wit's end
No one but you can heal me again
There's no doubt about it
Baby you're so good to me
When I've reached the end of my rope
When I'm feeling down and I'm giving up hope
There's no doubt about it
Baby you're so good to me

When I'm finally at my wit's end
No one but you can heal me again
There's no doubt about it
Baby you're so good to me
When I've reached the end of my rope
When I'm all broken down and I'm giving up hope
Couldn't live without it
Baby you're so good to me

And I want to thank you
(Baby you're so good to me)
Every day, every night
(Baby you're so good to me)
Everything about yourself
(Baby you're so good to me)
Love how you love me
(Baby you're so good to me)
