

# I Don't Want To Lose Your Love

**Bobby Caldwell**

I think of your face  
And my mind slips into outer space  
People run around acting like fools  
I'm in another place

There must be a way  
Will I never find the words to say  
If I get the lines that you will hear  
Are you gonna disbelieve me dear

I don't wanna lose your love  
Darling you are all that I'm thinking of  
Let me say the words that you long to hear  
My dear

Love don't you agree  
Is it something you refuse to see  
Let me say the words that you will hear  
I only wanna hold you dear

I don't wanna lose your love  
Darling you are all that I'm thinking of  
Let me say the words that you long to hear  
Are you gonna disbelieve me dear
